

Chengdu Icon Design

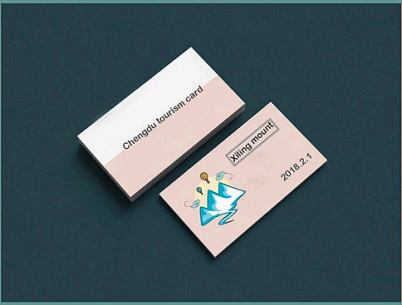

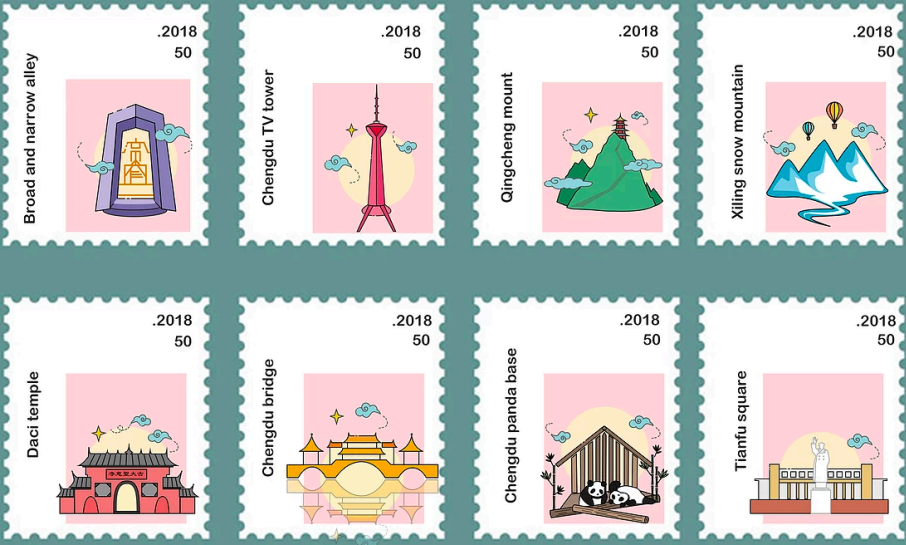

Wenheng Gao

I finished this small design project in 2018. This is a set of icon design inspired by the famous architectural landmark in Chengdu, China. I was born in this land, and I have experienced constant changes with this city for several years. However, what will not change in this city is these iconic places. These landmarks are cultural symbols handed down from a city through historical changes, and they are also the most representative appearance of a city in front of visitors.

Stamps for Chengdu

Using Chengdu famous symbols to design a series of stamps

Postcard

A series of postcard and letter box with logo of Chengdu famous sites

Office supplies

Writing papers and office supplies like paper cup with design of Chengdu's famous sites
